

David Kidney MP Opened the Multi-Sensory Room Sensory on Baswich Ward
In attendance at the opening were:

CEO of the Trust Neil Carr, Chairman Steve Jones, together with staff from Baswich Ward and many families and friends joined in the opening of the Room.

Imagine being in a room with coloured lights dancing across the walls, the sounds of the sea playing in the background, a smell of fresh lavender in the air.
The effect can be stimulating, therapeutic, soothing and has the ability to calm an agitated person.
